Class I Accumulation (ISIN GB00B7KKN090)

The Fund is managed by WAY Fund Managers Limited

### Objective and investment policy

#### Objective:

To achieve longer term capital growth by investing in markets in both the UK and overseas.

#### Policy:

• The Fund will principally invest in collective investment schemes, exchange traded funds and unregulated collective investment schemes (which include limited partnerships).

• The Fund may also invest in investment trusts (and similar instruments) and other transferable securities, money-market instruments, fixed income instruments, deposits and foreign exchange contracts.

• Investments will not be confined to any particular sector.

• The Fund may hold, on a temporary basis, all or part of its assets in cash or other ancillary liquid assets.

• The Fund may utilise derivatives for the purposes of efficient portfolio management.

#### Other information:

• You can buy and sell shares on most business days where the London Stock Exchange is open for a full range of services.

• The Fund's base currency is Pounds Sterling.

• We carry out investors' requests, to buy, sell or switch, at midday on each business day (which excludes UK public holidays). If we receive a request after midday, we deal with it on the next business day.

• There can be no guarantee that the objective of the Fund will be achieved.

• On encashment, particularly in the short-term, you may receive less than the original amount invested.

• As you hold accumulation shares, income from investments in the Fund will be rolled up into the value of your shares.

• This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

• The risk category shown is not guaranteed to remain unchanged and may shift over time.

• The lowest category does not mean 'risk free'.

• The Class I Shares above appear as a "5" on the scale. This is partly because the Fund invests in the shares of companies, whose values tend to vary more widely.

• The Fund does not provide its investors with any guarantee on performance, nor on monies invested in it.

In addition to the risk captured by the indicator, the overall Fund value may be considerably affected by:

• Counterparty Risk—The Fund could lose money if an entity with which it interacts becomes unwilling or unable to meet its obligations to the Fund.

• Liquidity Risk—Certain securities could become hard to value, sell at a desired time and price, or cease to trade altogether.

• Management Risk—Investment management techniques that have worked in normal market conditions could prove ineffective or detrimental at other times.

• Exchange Rate Risk—Fluctuations in exchange rates may cause the value of your investment to rise or fall.

• Non-UCITS Retail Schemes (NURS) - The Fund is classed as a NURS and can have wider investment and borrowing powers than a UCITS scheme with higher investment limits in various areas. It can also invest to a greater extent in areas such as property and unregulated schemes and have the option to borrow on a permanent basis. Such additional powers can increase potential reward, but may also increase risk.

• Exchange Traded Funds - The Fund may invest in Exchange Traded Funds which represent a basket of securities that are traded on an exchange and may not necessarily trade at the net asset value of their underlying holdings. As a result, they may trade at a price that is above or below the value of the underlying portfolio. Exchange traded funds may not be backed by underlying physical positions and may be subject to counterparty risk.

• For full details of the Fund's risks please see Section 5 of the Fund's Prospectus, which is available from the ACD at WAY Fund Managers Limited, Cedar House, 3 Cedar Park, Cobham Road, Wimborne, Dorset, BH21 7SB or, during normal business hours on 01202 855856.

The entry and exit charges shown are maximum figures. In some cases (including when switching to other funds) you might pay less - you can find out actual entry and exit charges from your financial adviser.

The ongoing charges figure is based on expenses for the period ending 31 July 2018 and may vary from year to year. The ongoing charges figure includes any portfolio transaction costs which the Fund pays to its service providers (e.g. to the Fund's custodian) and any entry/exit charges the Fund pays when buying/selling units in another fund. In general, however, the figure excludes other portfolio transaction costs. The ongoing charges are taken from income. Should income levels be insufficient, investments in the Fund may be sold to cover the Fund's expenses, its capital assets may be used to meet ongoing charges and the value of your units would be reduced.
