I SEDOL code	BG6LVY9
I ISIN code	GB00BG6LVY99

Fund manager's commentary

UK equities rose 3.00%, beating the 2.24% gain for global equities in sterling following a double dose of good news as Astra-Zeneca's Covid-19 vaccine was approved in the UK and an EU-UK trade deal averted a hard Brexit. The EF Brompton Global Growth Fund's five UK equity holdings all outperformed. Strong performance from cyclically-sensitive companies benefited Artemis UK Special Situations and Man GLG UK Income, up 5.87% and 4.38% respectively. Smaller companies were particularly strong, gaining 6.80% and contributing to Chelverton UK Equity Growth's 7.05% return. The dollar fell 2.33% against sterling, contributing to the 1.02% fall by global bonds. UK government bonds, however, returned 1.55% while sterling corporate and high-yield bonds gained 1.67% and 1.04% respectively. Within the portfolio, Henderson Fixed Interest Monthly Income returned 1.14%. Equities in emerging markets and Asia excluding Japan gained 4.89% and 4.35% in sterling, aided by dollar weakness. Within the portfolio, Matthews Asia ex Japan Dividend and Goldman Sachs Emerging Markets Equity outperformed, up 7.16% and 6.11% respectively, but Baillie Gifford Pacific and Morgan Stanley Asia Opportunities lagged, up 3.06% and 3.60% respectively. All the alternative investments delivered gains, with the 3i Infrastructure investment trust and Man GLG UK Absolute Value performing best, up 2.67% and 1.25% respectively. Gold rose 3.94% in sterling, leading to gains by the iShares Physical Gold exchange-traded commodity and the iShares Gold Producers exchange-traded fund of 4.78% and 1.85% respectively. The EF Brompton Global Growth Fund rose 3.26%† in December while the sector gained 2.39%. Financial data source: Refinitiv 31 December 2020. † B Acc shares

Please see overleaf for performance and other important information

Investment policy

The Fund will typically invest a minimum of 80% of its net asset value in collective investment schemes, exchange traded funds, unregulated collective investment schemes, and may also include transferable securities (including investment trusts and similar instruments), money-market instruments, fixed income instruments, deposits and foreign exchange contracts.

It is expected that exposure to equity markets will typically range from a minimum of 40% to a maximum of 85% of the total Fund, with the aim of achieving the Fund's objective. However, investments will not be confined by industrial, economic or geographical sector.

The Fund may also hold, on a temporary basis, all or part of its assets in cash or other ancillary liquid assets.

The Fund may utilise derivatives for the purposes of efficient portfolio management (typically hedging, including investing in hedged share classes, which attempts to mitigate against falls in the value of the Fund's assets and the effects of changes in currency exchange rates against the Fund's base currency, which is pounds sterling).

The Fund's benchmark is IA Mixed Investment 40-85% Shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.

1st quartile means the fund is ranked in the top 25% of funds in its sector

Important information

For full details of the fund and its risks please refer to the prospectus or Key Investor Information and Supplementary Information Document, which can be found on the Brompton Asset Management website, www.bromptonam.com. The value of assets and income generated from them may fall as well as rise. Investors may not get a steady income flow and, on disposal, may not receive all their capital back.

Past performance is not an indicator of future performance.
