Fund manager's commentary

Global equities and global bonds fell 0.88% and 1.33% respectively in sterling. The pound gained 1.87%, 1.17%, and 0.46% respectively against the yen, euro and dollar following December's European Union-UK trade deal. Higher energy and industrial commodity prices lifted inflation. UK government bonds and investment-grade corporate bonds fell 1.67% and 1.07% respectively while high-yield bonds rose 0.84%. Within the WAY Global Balanced Portfolio, the sterling-hedged holdings in RWC Asia Convertibles and Legal & General Global Inflation Linked Bond returned 2.80% and 0.47% respectively but Janus Henderson Strategic Bond fell 0.45%. US Senate run-off elections handed the Democrats control of both houses of Congress, easing the legislative path of their policies, including higher taxes. President Joe Biden proposed a \$1.9 trillion fiscal easing plan and US stocks underperformed, falling 1.46% in sterling. Morgan Stanley US Advantage did worse, down 2.12%. Dollar-weakness buoyed equities in Asia excluding Japan and emerging markets, up 3.63% and 2.62% respectively in sterling. Baillie Gifford Pacific and Baillie Gifford Emerging Markets Growth outperformed, up 5.40% and 4.61% respectively. UK equities fell 0.69% but smaller companies fell only 0.21%. Among significant holdings, Chelverton UK Equity Growth, a growth-oriented holding, did best, rising 2.27%, but Majedie UK Focus fell 0.60%. Gold price weakness precipitated a 4.79% fall in the iShares Gold Producers exchange-traded fund. The portfolio's alternative holdings failed to deliver positive returns, with Blackrock European Absolute Alpha the weakest, down 1.82%. The WAY Global Balanced Portfolio fell 0.09%† in January while the sector fell 0.34%. Financial data source: Refinitiv 31 January 2021. † E Acc shares

Investment objective & policy

The objective of the Fund is to provide long-term capital growth.

The Fund will seek to achieve its objective from an actively managed and diversified portfolio of collective investment schemes (including investment trusts) with exposure to cash, fixed interest securities, equity and equity-linked investments selected from various markets worldwide encompassing a variety of economic sectors. The Fund will typically invest between 20% and 60% of its portfolio in schemes which invest in equity securities.

The use of derivatives is not permitted but borrowing of up to 10% of the Fund's net asset value will be permitted on a temporary basis.

The Fund may invest in hedged share classes of underlying funds.

Although the Fund will normally remain fully invested, the property of the Fund may consist of up to 10% cash or near cash where this may be reasonably regarded as necessary in order to enable the pursuit of the Fund's objective, the settlement of redemptions of units and the efficient management of the Fund in accordance with its objectives or other purposes which may be reasonably regarded as ancillary to the objectives of the Fund.

The Fund's benchmark is IA Mixed Investment 20-60% Shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.
