Fund manager's commentary

The Federal Reserve increased its 2021 economic growth forecast to 6.5% as recovery accelerated in the wake of Covid-19 vaccinations. President Biden enacted his \$1.9 trillion stimulus package and called for \$2.25 trillion of infrastructure spending funded by increased corporate taxes. US jobs data exceeded expectations, with unemployment falling to 6%. US stocks gained 5.77% in sterling, outperforming the 4.09% gain by global equities. Economically-sensitive cyclical companies outperformed. Within the WAY Global Cautious Portfolio, this contributed to the 7.04% gain by the iShares World Value Factor exchange-traded fund but proved a headwind for growth-oriented managers. US technology shares lagged, up 2.60% in sterling, and Polar Capital Global Technology was even weaker, down 2.60%. UK stocks gained 4.12% and smaller stocks outperformed, up 5.08%. Among portfolio holdings, Aberforth UK Small Companies and Artemis UK Special Situations gained 8.06% and 6.81% respectively but Majedie UK Focus gained only 2.40%. In Asia excluding Japan, equities lagged, down 1.22% in sterling. The growth-oriented holding, Baillie Gifford Pacific, did worse, down 5.33%. Global bonds fell 0.62% in sterling as inflation expectations rose while UK government bonds rose 0.03% and sterling corporate bonds fell 0.17%. Among the significant bond investments, the sterling-hedged holding in Legal & General Global Inflation Linked Bond and Fidelity Global Inflation-linked Bond returned 1.10% and 0.85% respectively, benefitting from their relatively-short duration and inflation protection. Janus Henderson Strategic Bond, however, fell 0.75%. The WAY Global Cautious Portfolio gained 0.55%† in March while the sector rose 0.62%.

Brompton Asset Management

Investment objective & policy

The objective of the Fund is total investment return against the IA Mixed Investment 0-35% Shares sector over a 3 year rolling period. Capital invested in the Fund is at risk and there is no guarantee that the investment objective will be met over the 3 year rolling period or in respect of any other period.

The Fund will seek to achieve its objective through conservative investment in an actively managed and diversified portfolio of collective investment schemes, investment trusts, other listed securities, cash or near cash, deposits and money market instruments. The Fund will typically invest up to 35% of its portfolio in equity securities. The Fund may invest up to 20% in unregulated collective investment schemes.

There will be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector.

Derivatives will not be used. Currency hedging transactions, including investing in hedged share classes, may be used where appropriate, in order to mitigate against the effects of changes in currency exchange rates against the Fund's base currency which is pounds sterling. Borrowing of up to 10% of the Fund's net asset value will be permitted.

The Fund's benchmark is IA Mixed Investment 0-35% Shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.
